

K-Love is a great christian radio station who supports wholesome values, positive encouragement, safe music to our local community which includes children and adults. These LPFM stations may be the only release people have during the ups and downs of every day life. These stations really touch lives every day in a positive way, please consider the number of saved lives or people who come to Jesus simply because of a song/songs they hear. Thank you in advance for reading and responding positively to my comments. Lory Payne
